

Yuzu-Yuzu

Liqueur distilled from the Japanese citrus, yuzu.

*Yuzu has the acidity of a lemon,
tempered by the bitterness of a lime,
yet the result is somehow sweeter than both.*

Okadaya in Shimane, Japan, has been brewing shochu (Japanese liquor) and sake since 1877. Now they have put all their know-how to use to produce the refreshing citrus liqueur, Yuzu-Yuzu.

Yuzu-Yuzu is made with locally grown, high-quality, aromatic yuzu only.

- It can be enjoyed on ice for a lovely, refreshingly citrusy drink that is both sweet and full of flavor.
- It can be blended with sparkling water for a beautiful sparkling lemonade – perfect for warm summer days.
- For colder days, it can be served up with hot water as a heart-warming hot lemon toddy.
- Or how about trying out Yuzu-Yuzu in a citrusy cocktail?

- ◇ Alcohol content: 10%
- ◇ Made on a rice-shochu base
- ◇ Comes in three sizes; 360ml, 720ml, and 1,800ml
