Mature **YUZU-YUZU**

Okadaya in Shimane, Japan, has been brewing shochu (Japanese liquor) and sake since 1877. Now they have put all their expertise into creating a liqueur for more mature tastes, based on their popular yuzu liqueur, Yuzu-Yuzu.

Mature Yuzu-Yuzu is made with bitter persimon purée – using quality persimons from Saijou in Shikoku – and citrusy yuzu juice from locally grown yuzu.

The blend of bitter persimons and refreshing yuzu along with the smooth shochu rice-liquor base creates a well balanced and full-bodied liqueur.

Mature Yuzu-Yuzu is a versatile drink that can be enjoyed as is, heated, with ice, or mixed up for a delicious cocktail.
